THE WORLD IN YOUR HANDS. LEARN MORE ABOUT OUR AIR FORWARDING SERVICES

- Air transport is the **fastest way of moving goods**.
- Thanks to the commitment of our employees, own structure and a network of reliable, **trusted partners**, we can ship anything, to any corner of the world.
- Air transport orders are **completed to the satisfaction** of our customers' needs and at **competitive prices**.
- A particular feature of our service is the focus on **optimizing the supply chain** from the cost-to-time perspective.

BENEFITS

- Various shipment modes: express, standard and economy.
- Transport in **controlled temperature**, dangerous goods and oversized loads.
- **Airport-to-airport** (indicated air route), **door-to-door**, **door-to/from-airport** (hand-over, air transport, import/export customs clearance, delivery).
- Transportation in **“courier on board / hand carry”**.
- **Consolidation, deconsolidation** and warehousing services.
- **Supplementary services to air transport:** customs formalities, documentation and insurance.
- **“Hold and Release”** procedures for completing trading transactions.
- **Full cargo inspection, pack and re-pack, neutralizing, X-Ray scanning and screening services, distribution and transport.**

SHIPMENTS

Air transport is used to ship spare parts, machinery and equipment, pharmaceuticals, cosmetics, fresh and processed goods, clothing, consumer electronics, dangerous goods (DGR), products for use on fair & exhibitions. The goods are submitted for cargo insurance.

- A part of our business is shipping parts for passenger and freight ships undergoing repairs in various parts of the world.
- Such shipments must be made in **specific time frame** - otherwise, the repaired ship will leave the harbour.
- **Our planning activities begin at the stage of production:** we advise what packaging type and size should be used, we book flights with airlines, we report export to customs, we closely follow the status of our shipments.
- Sometimes, **the goods picked up from the manufacturer and destined for shipment are stored in one of our logistics centres or in bonded warehouses.**
- Delivery of the goods to the airport is often done with **specialized vehicles.**

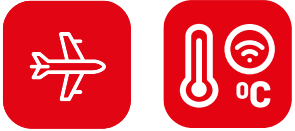

Raben

**YOUR PARTNER
IN LOGISTICS**

AIR FREIGHT

CONTROLLED TEMPERATURE

- We carry shipments in controlled temperature: for frozen goods, in **2-8°C** and in **15-25°C ranges**.
- We use **thermal insulation foil** (NBN B62-201, 0.029 W/mK).
- This sort of transport follows the principles of a cool chain and is mainly used for pharmacological goods.
- **Reach out to us if you want to learn more about this solution!**

SEA FREIGHT

CONTROLLED TEMPERATURE

- Our specialists have many years of experience in handling shipments of goods requiring controlled temperature (in reefer containers) and non-standard or oversized loads (OOG and project cargo).
- Thanks to special contracts concluded with shipowners, we guarantee that our customers will have as much space in containers as they need, even in peak season.
- **If your products need special conditions, be sure to check our offer!**

PROJECT CARGO SERVICES

Our clients can benefit from logistics services such as:

- **Storage of goods and containers/trailers, full/empty, short and long term.**
- **Cargo handling** (we handle any kind of general merchandise: palletized, unpalletized, big bags, packing, boxes, boxes and rolled products –table rollers, pipes, paper rolls and wood products–logs, lumber etc.).
- **Container handling: 20', 40', 45'** including special containers (if applicable).
- **Trailer handling:** Huckepack and non-intermodal.
- Loading and unloading goods into / out of CFR freight wagons **for LCL shipments.**
- Transshipment of cargo **from container to tilt truck** and vice versa.
- **Consolidation and deconsolidation** of goods.
- Labeling, packaging, palletizing, sorting.
- Ordering, stock and inventory management.
- Specialized transport and logistics services for the automotive industry.

PROJECT CARGO SERVICES

Our company takes over and manages special projects in terms of both the organization of transport and the supply of other logistics services requested by our clients. We pay attention to any oversized transportation and do our best to deliver it safely and on time.

Among the “project cargo” services we can provide:

- Organization of multimodal transport for special goods
- Handling of special goods
- Weighing of special goods
- Storage of special goods.
